

I am in favor of the "Do not call" law opposed on telemarketers. Please protect the citizens of NJ, not the businesses that try to sell products and make those unwanted solicitation calls. After signing up, I have been free of those calls, which were numerous each day. And I definately do not want unwanted calls going to my cell phone, since I have a pre-paid plan, and spend \$.25 per minute. Thank you, a concerned citizen who wants protection
